OBJECTIVE:

Recent BSC IT graduate and an Aspiring Web developer seeking an entry level position to apply technical skills and contribute to dynamic projects. I have a passion for creating efficient and robust web applications. With a strong foundation in Html, CSS and Bootstrap. I bring a wealth of experience to every project I undertake. Eager to learn and grow within a collaborative team environment.

SKILLS:

- **Frontend** - HTML | CSS | JavaScript
- **Framework**- Bootstrap
- **Backend** – Core Java
- **Database** – SQL | MYSQL | MSSQL
- **Tools** - Visual Studio | GitHub | Git Bash

INTERNSHIP EXPERIENCE:

Java Intern – ONLEI Technologies ([link](#)) : [April 2024 – June 2024]

- Working as part of a dynamic team at ONLEI Technologies, gaining practical experience in Java development.
- Contributed to the development of Java applications under the guidance of senior developers, focusing on code optimization and performance improvement.

PROJECT:

1) Learning Management System Website -

Front End and Back End Development

- Tech stack: HTML, CSS, JavaScript, PHP, Ajax, MYSQL.
- Backend implementation built using Php and Express.js to handle API integrations, and database operations.
- Database management utilized XAMPP as the database to store and manage product information and user data.

2) Amazon Website Clone- [\(link\)](#) Front End Project

- Tech Stack: Leveraged HTML5, CSS3 for building a mobile-friendly layout and ensuring cross-browser compatibility, improving accessibility and usability.
- Key Features: Implemented navigation menus, product listing pages, and a functional shopping cart using CSS, demonstrating proficiency in front-end web development and design principles.
