

Fill in the blank in the Result column as shown in the below table, for given Boolean expression that contain logical operators, with given values for variables.

a=10

b=15

c=30

Expression	Result (True or False)
a>b && a>c	FALSE
a<b && c>b	TRUE
a>b c>b	TRUE
! (b>a)	FALSE

Instructions:

&& : Logical AND

|| : Logical OR

! : Logical NOT
